## ABOUT ME

I am Imran, a dedicated Software Developer specializing in React Native. I excel in creating cross-platform mobile apps and responsive web applications using HTML, CSS, and JavaScript. With a strong focus on UI/UX design, I effectively translate Figma prototypes into functional interfaces. I am committed to writing clean, efficient code and optimizing app performance. My collaborative approach in agile environments ensures high-quality product delivery.

## WORK EXPERIENCE

01/01/2019 - CURRENT Sargodha, Pakistan

● **Application developer** Freelancing

**Software Developer / App Developer**

**Mobile App Development:** Developed cross-platform apps with React Native, implementing user-friendly interfaces from Figma designs.

**Front-End Development:** Built web apps using HTML, CSS, and JavaScript, ensuring browser compatibility and performance.

**UI/UX Design:** Converted Figma prototypes into functional interfaces, conducting usability tests.

**Code Maintenance:** Wrote clean, efficient code, performed code reviews, and optimized performance.

**API Integration:** Integrated third-party APIs and developed backend services.

**Testing:** Conducted unit, integration, and end-to-end testing.

**Collaboration:** Worked with cross-functional teams in agile development, ensuring effective communication.

**Continuous Learning:** Updated skills through training and staying current with industry trends.
